# A World of content right at your finger tip

How many times have you been scrolling through your Instagram & Facebook feeds, flicking a magazine and watching your favourite trailers/videos, found an amazing bag or jacket you want straight away?

**HotSpotting World app have the answer!**

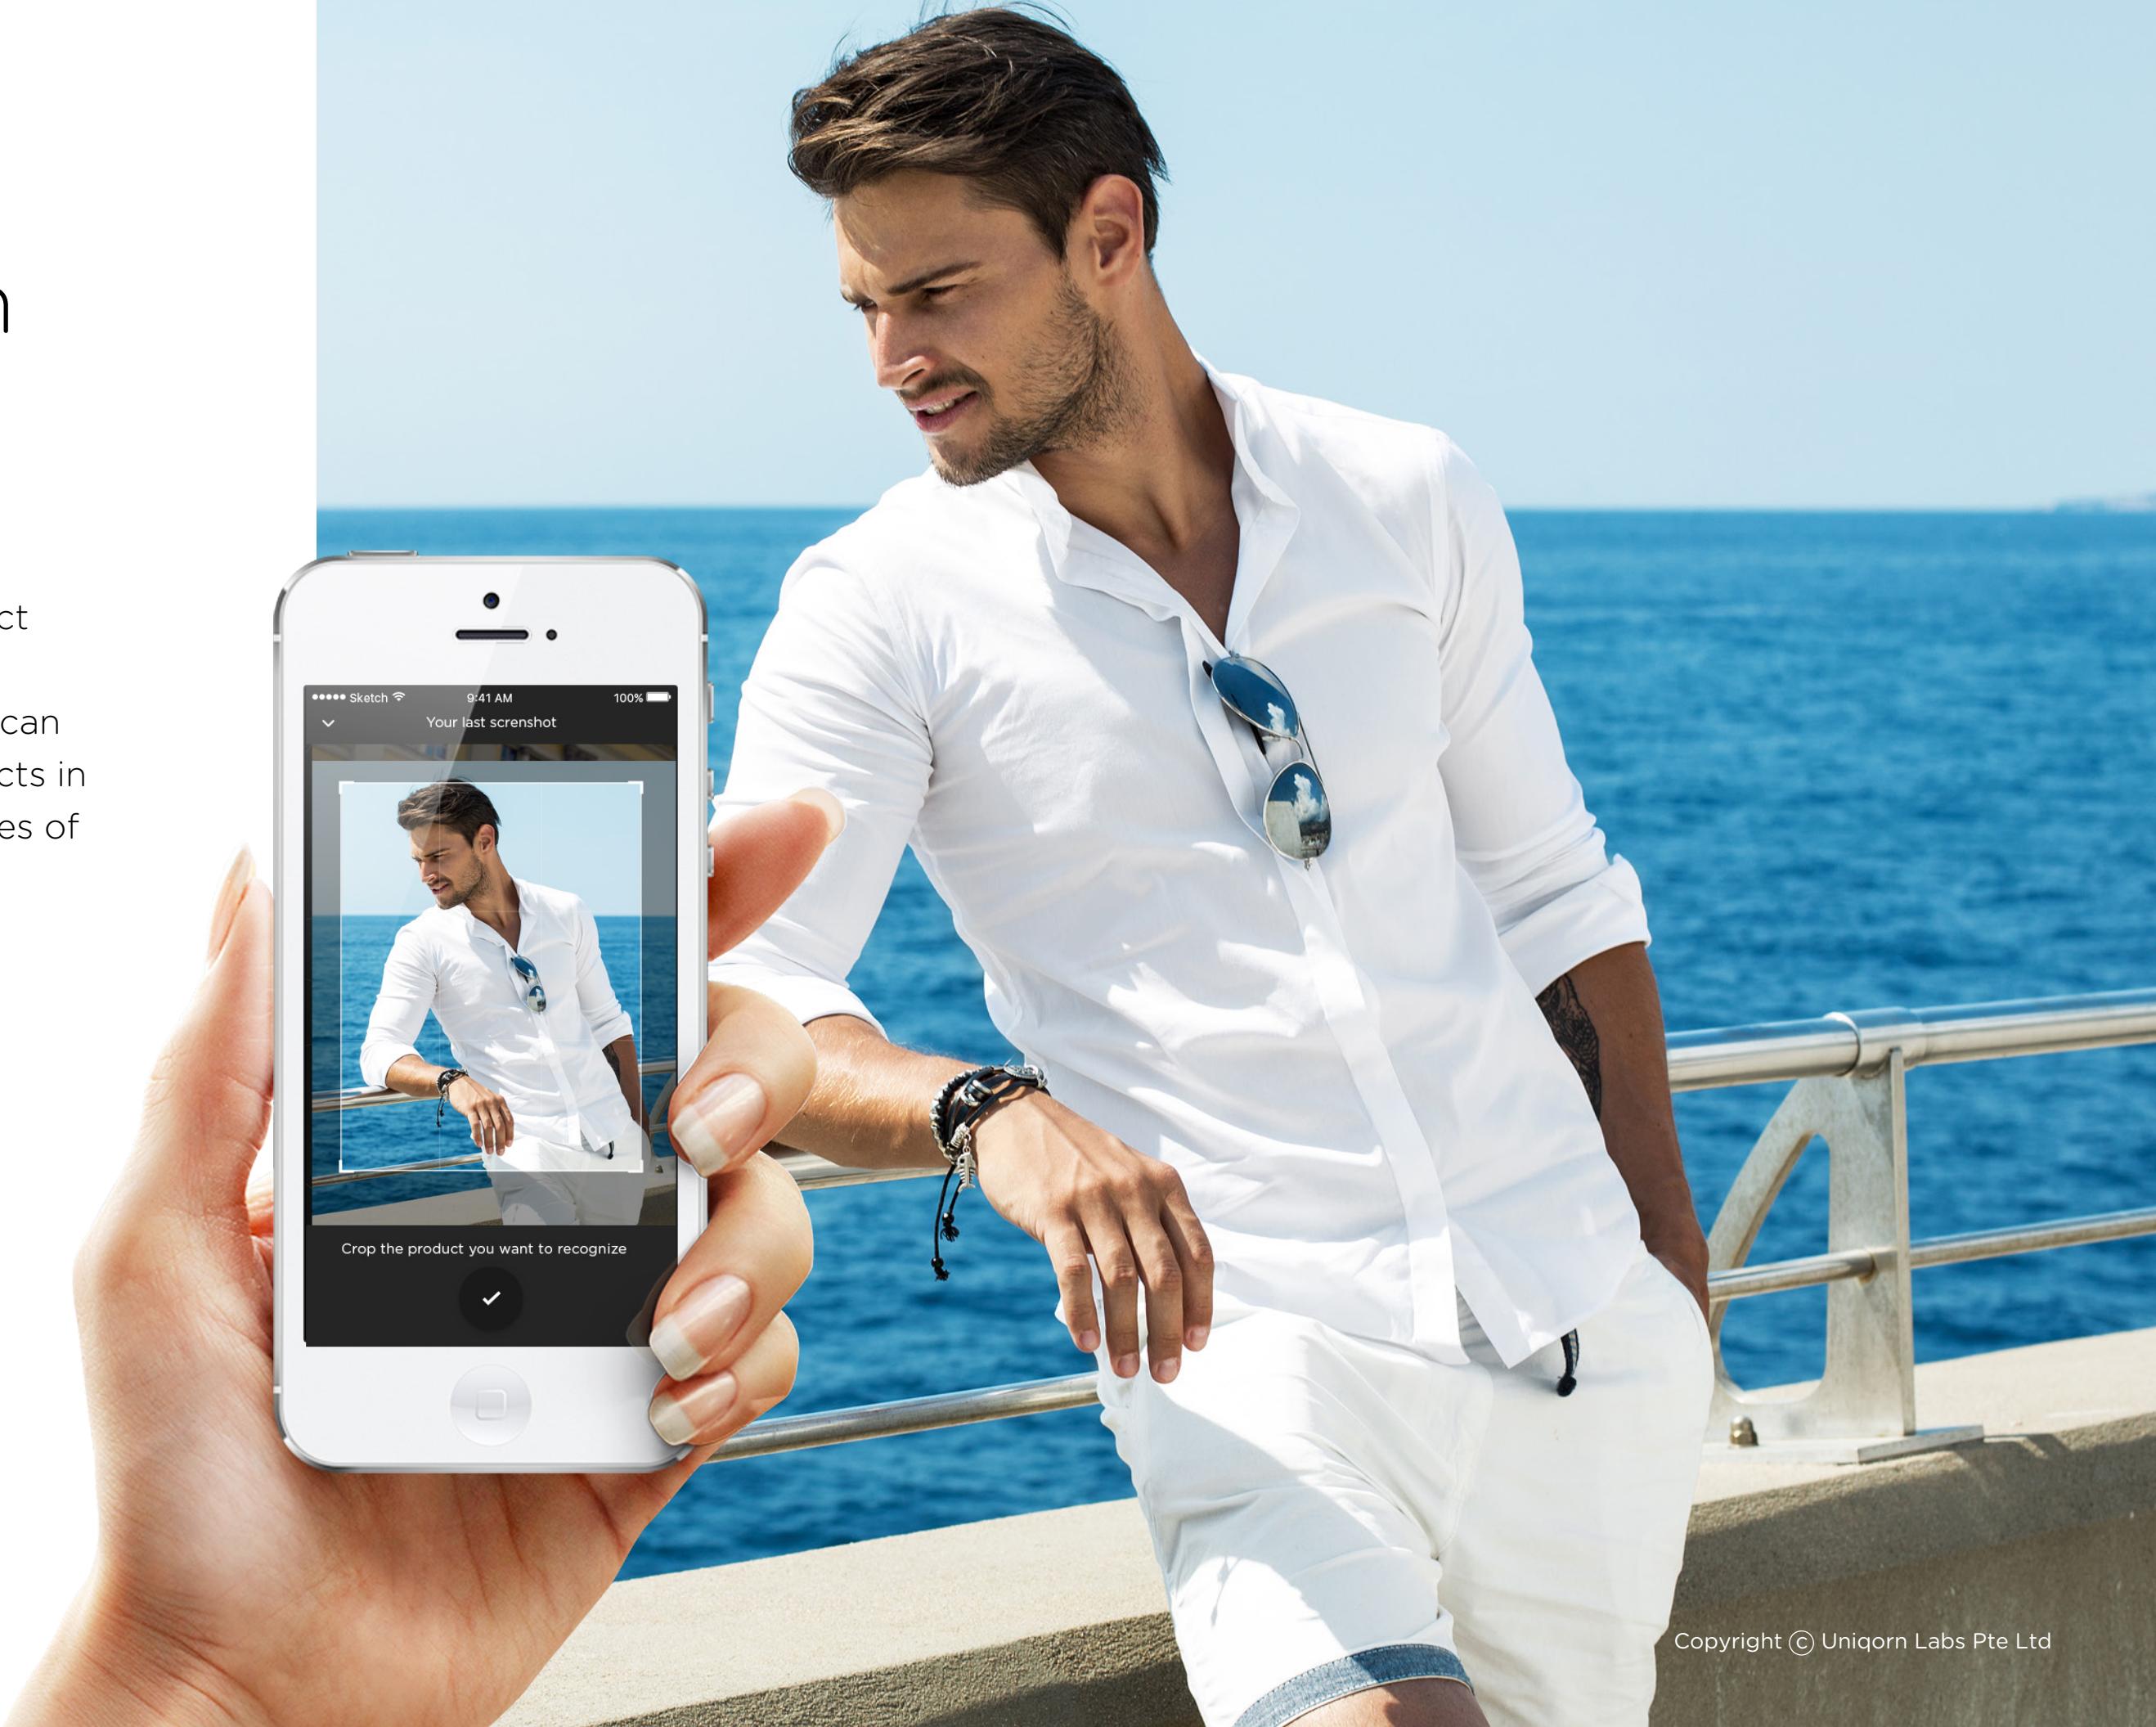

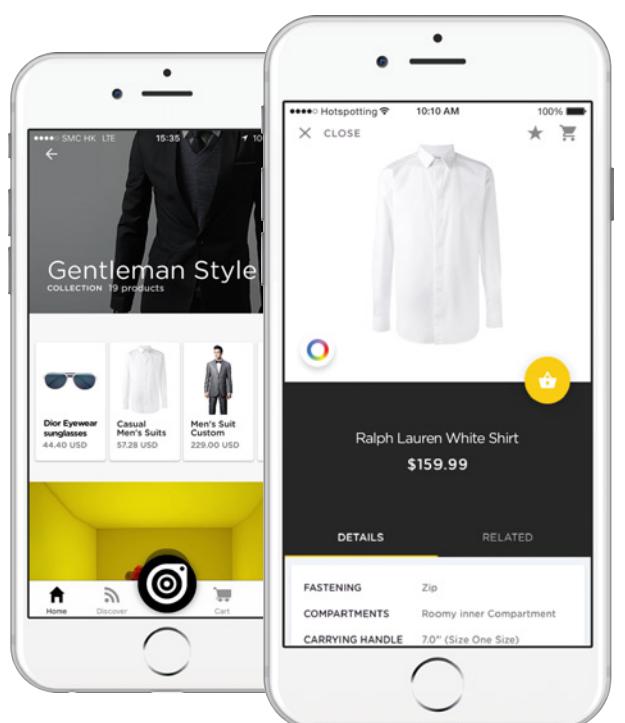

HotSpotting World app believe anything can be shopable. With our award winning object recognition engine, you have the power to crop & shop anywhere from print, video and the real world.

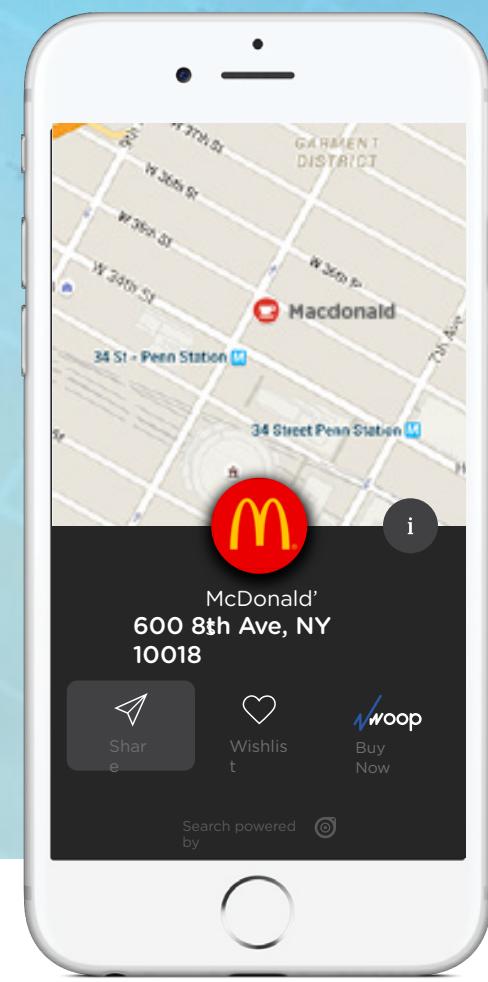

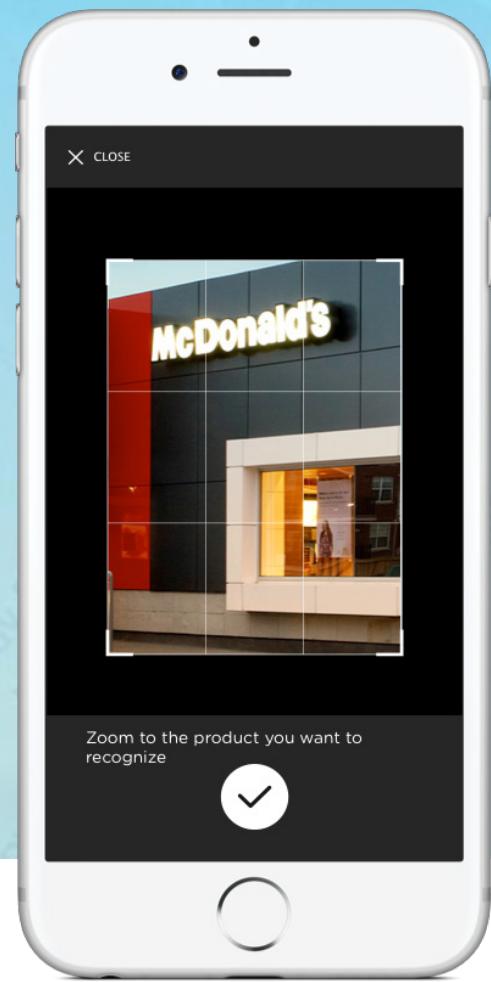

# Object Recognition Engine

*image/product*

With our award winning object recognition engine and sophisticated algorithms, we can enable you to recognise objects in our 19million+ image databases of our e-commerce partners.

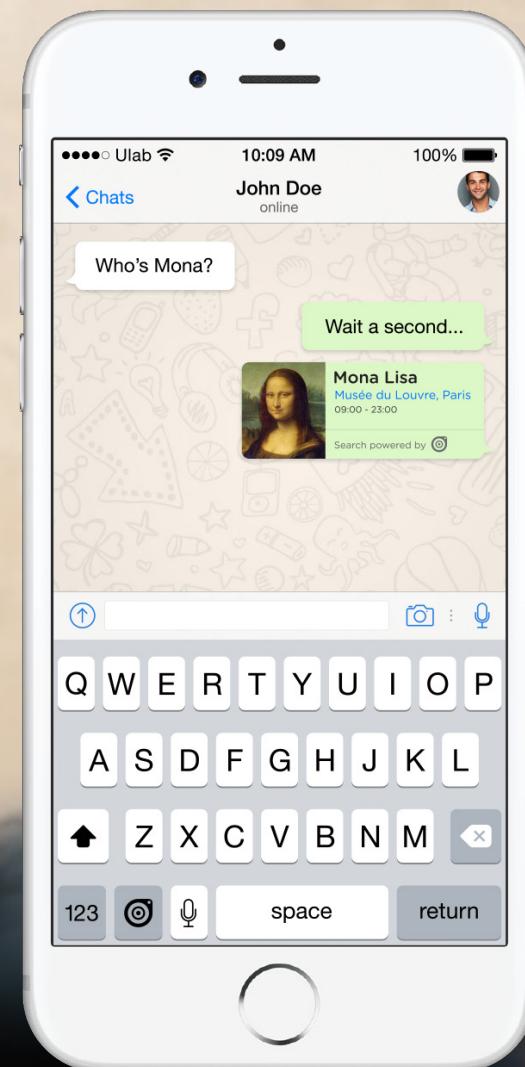

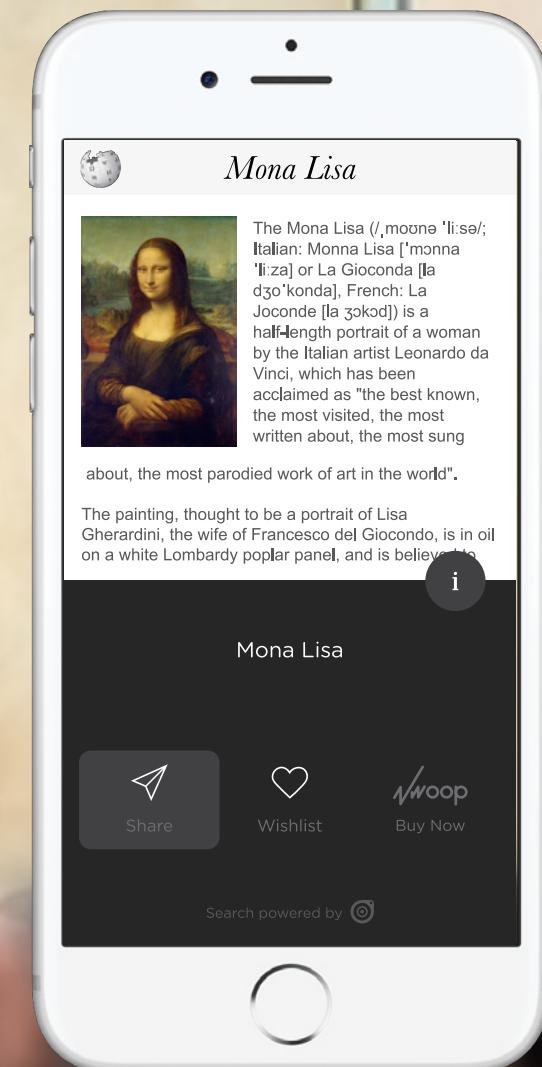

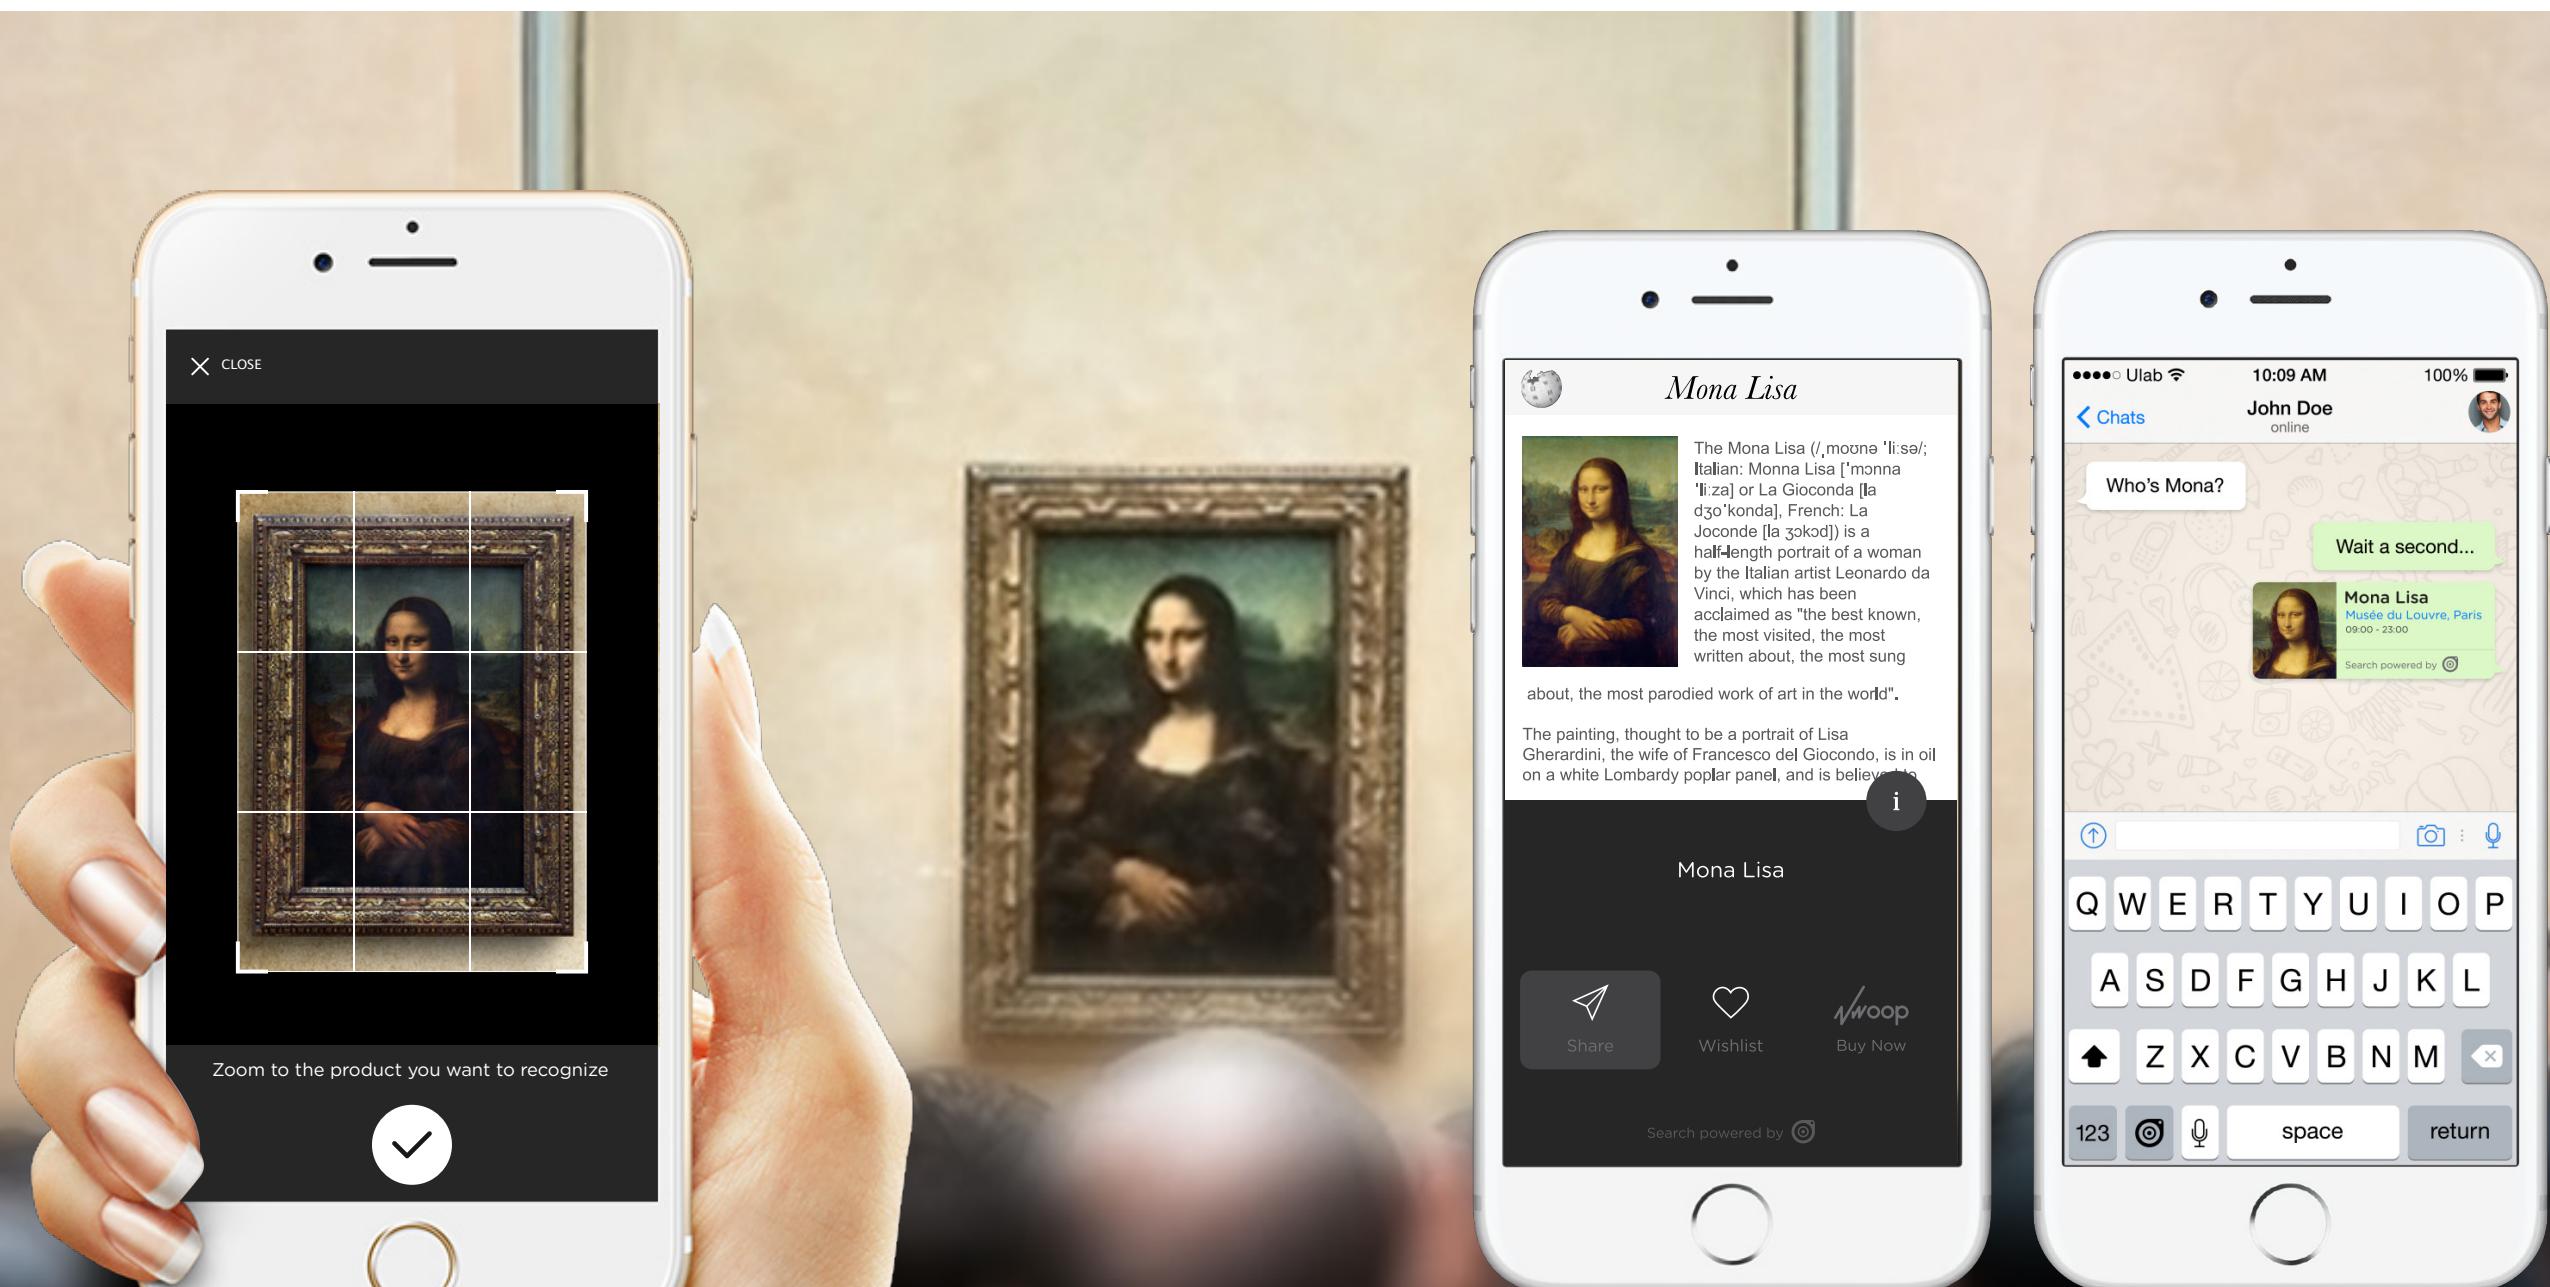

# Object Recognition Engine

## Location

We specifically created API's to enable you to scan & recognize different types of information/location right from the HotSpotting World keyboard SDK.
